## ABOUT ME

I am a hard-working college student studying data science and information science. I am helping to pay for my education through part-time jobs, mostly in the food industry. I also do outdoor volunteer work, enjoy skiing, and like to get involved in Japanese cultural work.

## GOALS

I want to begin applying the skills I've built in school and projects. I've developed a strong work ethic and am excited to take on more responsibilities. I am seeking a position that allows me the opportunity to grow and I am eager to prove myself.

## SKILLS

- Tech savvy with certifications in Python and Java.
- Experienced with Python, Java, JavaScript, HTML, and CSS. I am currently learning SQL and C.
- Bilingual. I have a certificate of Japanese Language Proficiency (Level 4).

## PROJECTS

- Developed a mini-game application with JavaScript which included tic-tac-toe, a cookie clicker, a painting app, and a guessing game.
- Created a Google API integration that can take the name of any location and output a map with weather information.
- Built a website-based portfolio about myself using HTML, CSS, and JavaScript
  - You can learn more about me at <https://kentalipsey.com>

## EXPERIENCE

**Lavish Roots at Meta | Kitchen Staff** - July 2022 – September 2022, Bellevue, WA

Worked to feed Meta Platforms staff at their Bellevue Campus. I prepped food and cooked for the cafeteria. After each meal, I performed various cleaning duties for the cafeteria and kitchen.

**Japan Fair Volunteer | Media Team** - August 2023 – September 2023, Bellevue, WA

Helped take digital media at the Japan Fair for future advertising prospects.

**Nature Conservation | Trail Management** - 2017 – 2022 - Sammamish/Redmond/Issaquah, WA

Removed invasive plants and replanted them with native species; maintained hiking trails.

## EDUCATION

- **UW** | 2023 to Current | Information Sciences
- **Bellevue College** | 2022 to 2023 | Computer Science focus
- **Eastlake High School** | Graduated in 2021
